Fri 16th: **Final assembly of the year to say goodbye to staff.**

School closes at 12 noon.

Learning

Celebrating our new friendships in Juniper class.

Maple class preparing ingredients for halloumi salad.

Hawthorn class observing the purpose of different plant parts.

What have we been doing?

Year 6 Bikeability: children in Oak class have enjoyed learning how to ride safely on the roads this week. They have been taught how to carry out left and right hand turns and we are proud of their achievements. They also learnt about what makes a safe and roadworthy bike. Well done!

Visiting Chef: children in four classes have enjoyed some cookery lessons with Chef Harry Marquart this week. The dishes they have learnt how to cook all linked to their class topic and DT projects.

Maple class and Willow class made a Greek Halloumi salad. The children learnt how to prepare all of the ingredients and how to cook the halloumi. Willow class made theirs into a tasty sandwich.

Sycamore class and Oak class made wholemeal bread and some Carrot & Coriander soup. Children in Sycamore class have been exploring different types of bread linked to their Viking topic so the Wholemeal Viking Cereal Bread was very appropriate. Oak Class are learning about British Cities and Counties and learnt about how soup is a traditional dish.

One of the children in **Acorn Preschool** invited his friends to a tea party where they all had imaginary smoothies. Several children asked - "what is a smoothie?" So, the class made smoothies the following day, out of a variety of fruits, and learnt about healthy eating. Some flavours were very popular; others not so much!

In Science this week, **Hawthorn class** have been dissecting flowers to find out about all of the different parts. They then went on a scavenger hunt around the school grounds to explore the purpose of each of the parts.

Children in **Juniper class** have been writing thank you letters to their teacher for all of the learning they have been doing.
